Message from the president

Dear fellow members of the Academy

It is already eighteen months since the last Ceremonial Meeting of the Academy, and we are now looking forward to the next. It will take place during the 42nd International Congress for the History of Pharmacy organised by the International Society for the History of Pharmacy, being held from Tuesday 12 to Friday 15 September, 2017 in Warsaw.

Arrangements are already in hand for the Academy's Ceremonial Meeting. It will be held on the evening of Wednesday 13 September. The Academy Lecture will be given this year by our second vice-president, Professor Anita Magowski of Poland. Her title will be 'Pharmacopoeias as a mirror of scientific progress and social development,' in line with the main theme of the Congress. The Academy Lunch will be held on the same day

The Ceremonial Meeting is the occasion not only when new members are formally accepted into the Academy but also when changes to the membership of the Executive Committee take place. The Statutes state that members hold a named position for a period of four years, which may be renewed for one further period of four years. By September 2017 I will have completed two four year terms as your president, and it is therefore time for me to step aside and hand over the reigns.

The impending end of a long period of office is a time for reflection, and I am therefore taking this opportunity of my last 'message from the president' to look back over the last eight years on what has been achieved and what remains to be done. Let me start with new members, the lifeblood on any organisation. Between 2009 and 2017 we admitted a total of 29 new members, of whom 13 were men and 16 were women.

Although slightly more women than men have been admitted the ladies still have some catching up to do; 30 years ago there were only six lady members. The new members come from 15 countries, although none are from countries not previously represented in the Academy. We still have some work to do to bring in other countries, especially outside Europe.

We have also made some progress in developing an Academy website. Bruno Bonnemain kindly agreed to host one on the French Société d'Histoire de la Pharmacie website. It is available in French and English at <http://www.shp-asso.org/index.php?PAGE=AIHPanglais>. There are plans to add a German language version. This is a useful resource for those whose candidature is being considered and for those members considering nominating one of their colleagues. Our thanks to Bruno for taking this on.

The idea of an international journal on the history of pharmacy published under the auspices of the Academy has also been considered in recent years. We hoped to publish papers in French, German, English and Spanish. This has proved a little ambitious at this stage, but a more limited collaboration between the International and British Societies for the History of Pharmacy publishing papers only in English in *Pharmaceutical Historian* may meet some of the ambitions of the Academy in this area.

Finally my 'Message from the President' has offered an opportunity to raise concerns of interest to members of the Academy, or this 'upper chamber in the domain of the history of pharmacy' as it was described by the Academy's founding members. The Academy continues to provide honorific recognition for an individual's pharmaco-historical endeavour, and to stimulate international collaboration among historians of pharmacy.

As the Academy enters a new chapter it can take pride in the knowledge that it continues to serve a much valued function. The recognition by international peers that membership confers continues to be highly prized by colleagues throughout the history of pharmacy community.

With best wishes

Stuart Anderson

Obituary

Yngve Torud (1940 – 2017)

Professor Yngve Torud has passed away Jan. 12, 2017, at the age of 77 (1940 – 2017).

He was a well-known figure in the Norwegian pharmacy profession, and he has left lasting marks in many areas.

For many years he was president of the ISHP, The International Society for the History of Pharmacy. He was also chairman of NFHS, The Norwegian Society for the History of Pharmacy, from 2003 until his death. His great contribution has left lasting traces in the history of both societies. Professor Torud was well liked. He had a friendly and invariably positive manner and a well-developed sense of humour.

He graduated from the Institute of Pharmacy at the University of Oslo in 1965. For a period he was the owner of Svaneapotheket in Oslo and later professor at the University of Oslo. Professor Torud published numerous papers, and he was the editor of several historical and jubilee/ anniversary publications, among them “Pharmacy in Norway throughout 100 years” (1981).

Professor Torud received numerous awards and honours. In particular should be mentioned an honour from Karls-University in Prague and the Medaille de la Ville de Paris, 1995 at the 32. Congres Internationale de la Histoire de la Pharmacie, in Paris. In Norway, he received the highest award of Norwegian pharmacy, Det Giftnye Kors, in 1999.

Professor Torud had many interests. In addition to a concern for the community in general, he took an interest in history, travelling, literature and music. Many of us will also remember his interest in singing, shared with us at many international congresses.

For many years he was a member of Guldbergs Akademiske kor, Guldberg’s Academic choir.

The choir made the funeral on Jan. 26 a most beautiful and memorable experience.

In Norway he was even known from TV. During the 1990s he represented the pharmacists in a most popular series called “Antikviteter og snurrepiperier”, Antiques and brick-mills. We remember Yngve Torud with both great joy and gratitude. A remarkable member of the pharmaceutical profession has left us.

Peter Metcalfe Worling (1928-2016)

Peter Metcalfe Worling PhD, FRPharmS (Great Britain) died in hospital on December 20, 2016, aged 88. Peter was brought up in India and attended the [New School in Darjeeling](#) between 1940 and 1945. He moved to Scotland and undertook his pharmacy training at the [Robert Gordons University in Aberdeen](#) from 1948 until 1950, the year in which he registered with the Pharmaceutical Society of Great Britain.

He had an illustrious career in pharmaceutical wholesaling, originally at Bradley & Bliss in Reading in the 1960s and later at Vestric Ltd. at Runcorn. He subsequently became managing director of AAH Pharmaceuticals Ltd.

Peter became interested in pharmacy history late in his career. He registered for a doctorate in [Pharmaceutical History](#) at the [University of Bradford](#) in 1983, working under the supervision of Professor Geoffrey Booth in the university's pharmacy practice research unit. In 1988 he was awarded a PhD by the University for his thesis entitled 'Pharmaceutical wholesale distribution'. Papers from the thesis were subsequently published in *Pharmaceutical Historian*, and he later published articles on a wide range of topics including the histories of Evans Medical Limited, the Proprietary Articles Trade Association, and James Simpson and chloroform.

Peter received a number of honours and awards during his life. He was designated a Fellow of the Royal Pharmaceutical Society in 1992 for distinction in the practice of pharmacy, and in 2011 he was awarded the Leslie Matthews Medal by the British Society for the History of Pharmacy for distinction in research on the history of British pharmacy.

Peter was president of the British Society for the History of Pharmacy in 2000 and 2001. It was in this capacity that he offered to host the 2005 International Congress for the History of Pharmacy in Edinburgh. Although no longer president he remained the driving force as chair of the local organising committee. He was designated a 'corresponding member' of the Academy in 2005. Along with his wife Iris he was a regular attender at International Congresses. He will be sadly missed by many people.

Sinon, ces candidats seront considérés comme élus et seront reçus comme nouveaux membres de notre Académie au prochain congrès de Pologne, en septembre prochain.

Elections to the Executive Committee

The names of the officers of the Academy's Executive Committee are laid down in the Academy's Statutes and have remained unchanged since 1952. The committee consists of one president, two vice-presidents, a secretary-general and a treasurer. All work on a honorary, unpaid basis.

Under Article 6 of the Statutes, the president and two vice-presidents are required to be of different nationalities, reflecting where possible the three main languages of the Academy, German, French and English. Members of the Committee are formally elected by the members of the Academy.

The term of office of each officer is four years. On completion of this term it may be renewed for a further period of four years, after which the office-holder must either be appointed to a different office or stand down.

When vacancies arise the secretary-general is required Under the Statutes to send to each member of the Academy the names of the holders of each post and a list of the forthcoming vacant posts. As of October 2016 the position is as follows:

Post	Name	Elected	Renewed	Expires
President	Stuart Anderson	2009	2013	2017
First vice-president	Christa Kletter	2009	2013	2017
Second vice-president	Anita Magowska	2009	2013	2017
Secretary-general	Bruno Bonnemain	2009	2013	2017
Treasurer	Axel Helmstaedter	2013	2017	2021

The composition of the Academy Executive Committee after September 2017 will be the following :

President:

Bruno Bonnemain (France) renewable for 4 years in 2021

First vice-president:

Afife Mal (Turkey) renewable for 4 years in 2021

Second vice-president:

Christa Kletter (Austria) renewable for 4 years in 2021

Secretary:

Anita Magowska (Poland) renewable for 4 years in 2021

Treasurer:

Axel Helmstaeder (Germany) renewable for 4 years in 2019.

The new committee will be announced on **13 September 2017** at the Ceremonial Meeting of the Academy, held during the International Congress for the History of Pharmacy in Warsaw, Poland. At the end of the meeting the president will hand over the Academy's Mueller-Jancke presidential chain of office to his successor.

43ème Congrès International d'Histoire de la Pharmacie
43. Internationaler Kongress für Geschichte der Pharmazie
Warsaw, 12-15 September, 2017

France

During the first semester of 2016, le French Society of History of Pharmacy has had two sessions in the “Salle des Actes” of the faculty of Pharmacy of Paris-Descartes, the 30th of March and the 8th of June 2016, with 8 présentations, including two from O. Lafont.

At the same time two new issues of our Journal “Revue d’histoire de la pharmacie” were published (n°389 and 390), including 15 studies and 40 various notes.

The 23rd of April 2016, Thierry Lefebvre gave some notions of History of pharmacy for the 50th anniversary of the pharmacy student Association of Angers (ACEPA, France). E. Motte-Florac and O. Lafont represented the French society during the 141st congress of the historical and scientific Works (11-16 April 2016). In May 2016, O. Lafont made a conference on Paracelse during the *European Association of Faculties of Pharmacy* (EAFP) conference, as well as a conference on the treasures of the Interuniversities Healthcare Library (Paris-Descartes) during the Italian Congress of history of pharmacy in Florence.

The 28th of May 2016, a second meeting on Lemery was organized in Lessines (Belgium). The French Society of history of pharmacy was represented by O. Lafont, B. Bonnemain, J. Trouchaud and J.-D. Bourzat.

Thierry Lefebvre organized, the 10th of May 2016, in Chatel-Guyon, a one day meeting on the history of thermalism and its resources, jointly with the French Society of thermal medicine. T. Lefebvre and C. Raynal gave two presentations. The summaries of this meeting will be published in October 2016 issue of the *Presse thermale et climatique*. SHP was also present at an exhibit in Baugé (France) from July to September on the subject of the containers of drugs.

Au cours du premier semestre 2016, la Société d’histoire de la pharmacie a tenu deux séances dans la Salle des Actes de la Faculté de pharmacie de l’Université Paris Descartes, le 30 mars et le 8 juin 2016, ce qui représente un total de huit communications, dont deux d’Olivier Lafont.

Dans le même temps, deux numéros de la *Revue d’histoire de la pharmacie* sont parus (n° 389 et n° 390), soit au total quinze études et plus d’une quarantaine de notes diverses.

Le 23 avril 2016, Thierry Lefebvre a esquissé quelques notions d’histoire de la pharmacie à l’occasion des 50 ans de l’Association corporative des étudiants en pharmacie d’Angers (ACEPA). Élisabeth Motte-Florac et Olivier Lafont ont représenté la Société d’histoire de la pharmacie à l’occasion du 141^e congrès du Comité des travaux historiques et scientifiques (11-16 avril 2016). En mai 2016, Olivier Lafont a donné une conférence sur Paracelse à la conférence annuelle de l’*European Association of Faculties of Pharmacy* (EAFP), ainsi qu’une communication sur les trésors de la

Bibliothèque interuniversitaire de santé (pôle pharmacie) au congrès de l'Académie italienne d'histoire de la pharmacie qui s'est tenu à Florence.

Le 28 mai 2016, une seconde journée Lémery s'est tenue à Lessines (Belgique). La Société d'histoire de la pharmacie y était représentée par Olivier Lafont, Bruno Bonnemain, Jean Troucheaud et Jean-Dominique Bourzat.

Thierry Lefebvre a organisé, le 10 mai 2016, à Châtel-Guyon, une journée d'étude sur « L'histoire du thermalisme et ses ressources », en partenariat avec la Société française de médecine thermale. T. Lefebvre et Cécile Raynal y ont donné deux communications. Les Actes de cette journée paraîtront dans le numéro d'octobre 2016 de la *Presse thermique et climatique*. La SHP a également participé à une exposition à Baugé de juillet à septembre 2016 sur le thème des contenants pharmaceutiques.

In addition, we have the following news from Sabine Anagnostou :

Prof. Dr. Sabine Anagnostou was re-elected as the president of the German Society for the History of Pharmacy (DGGP e. V.) in the General Assembly on 22nd of April 2016.

Nicole Schuster defended her PhD: **Traditionelle Febrifuga als moderne Phytopharmaka** (Supervisor: Prof. Dr. Sabine Anagnostou), Marburg 2016. (in print)

Maximilian Haars (Marburg) was awarded the famous Jerry Stannard Memorial Award of the University of Kansas, USA, for excellent papers in the history of sciences for his essay *Die Elementarqualitäten in der speziellen Pharmakologie Galens* (The qualities of the elements in Galen's special pharmacology) which appeared in volume 26 of the series *Antike Naturwissenschaft und ihre Rezeption* edited by von Jochen Althoff, Sabine Föllinger and Georg Wöhrle. The paper was written in the context of Maximilian Haars' thesis *Die καθόλου δυνάμεις der Galenischen Simplicia. Übersetzung und pharmazeutischer Kommentar von Buch XV der Collectiones medicae des Oreibasios von Pergamon* (The καθόλου δυνάμεις of the Galenic Simples: Translation und pharmaceutical comment of Book XV of the Collectiones

medicae by Oreibasios of Pergamon) which is supervised by Prof. Dr. Sabine Anagnostou (Marburg) and Prof. Dr. Sabine Föllinger (Marburg, classical philology / Greek philology).

Kerstin Grothusheitkamp (Marburg) was awarded the poster price of the DGGP 2016 for her poster *Die Kanadische Gelbwurz (Hydrastis canadensis L.) – ein homöopathisches Simile für Krebserkrankungen?* (Supervisors: Prof. Dr. Christoph Friedrich / Prof. Dr. Sabine Anagnostou, Marburg).

Biennial Congress of the DGGP e. V. From the 22nd to the 24th of April 2016, the biennial congress of the Deutsche Gesellschaft für Geschichte der Pharmazie (German Society for the History of Pharmacy) took place in Meißen, a city with a rich history at the famous Saxony wine route. The scientific discourse focussed on crossing borders in pharmacy. In pharmacy, borders of traditional ways of scientific thinking, dogmas and methods have been crossed as well as intradisciplinary and interdisciplinary borders, international (geographical) and ethnic, but also ethical, juristic and socio-economic borders. During the conference, various types of crossing borders, reasons, influences, connections, and interactions between scientific disciplines were defined, analysed and evaluated for their significance in the development of pharmacy. Eight speakers, including two colleagues from Poland and one colleague from Switzerland, investigated influences and consequences of crossing borders on the forming, development and transfer, on methods of the practical work and scientific advancements in pharmacy and the self-conception of pharmacy in the socio-cultural context: Prof. Dr. Christoph Friedrich (Marburg), Prof. Dr. Iwona

Arabas (Warsaw, Poland), Dr. Elena Roussanova (Leipzig), Dr. Barbara Frei Haller (Zürich), Prof. Dr. Anita Magowska (Poznań, Poland), Prof. Dr. Michael Mönnich (Tübingen), Prof. Dr. François Ledermann (Bern) and Verena Wulf (Düsseldorf). The papers are published under the title *Grenzüberschreitungen in der Pharmazie: die Vorträge der Pharmaziehistorischen Biennale in Meißen vom 22. bis 24. April 2016*. (Veröffentlichungen zur Pharmaziegeschichte, 14) edited by Christoph Friedrich and Wolf-Dieter Müller-Jahncke.

Prof. Dr. Axel Helmstädter (Frankfurt) received the Johannes-Valentin-Medal in silver by the president of the DGGP e. V. for his excellent scientific achievements in the history of pharmacy.

Wieland Schäfer (Löbau) was honoured with the Johannes-Valentin-Medal in bronze of the DGGP e. V. for his long-standing achievements and engagement in the history of pharmacy.

The next biennial congress of the DGGP e. V. will take place from the 6th to the 8th April 2018 in Lindau (Bavaria) and be dedicated to the topic: *Pharmacy – from craftsmanship to science*.

Joint meeting regional groups Baden and Württemberg.

From 22nd to 23rd October 2016, the joint meeting of the regional groups Baden and Württemberg organised by Prof. Dr. Marcus Plehn (Brackenheim), Prof. Dr. Michael Mönnich (Tübingen) and Dr. Elisabeth Huwer (Heidelberg) in the Abbey Schöntal, a historical site founded by the Cistercian

congregation took place. Approximately 150 participants followed lectures on the history of monastic pharmacy given by Dr. Larissa-Leibrock-Plehn (Hildegard von Bingen), Prof. Dr. Peter Dilg (Pharmacy in Umberto Eco's novel "The name of the rose") and Dr. Johannes G. Mayer (monastic pharmacy today).
