Message from the president

Dear colleagues, members of the International Academy of the History of Pharmacy

First of all, I would like to express my condolences and the Academy's support to all our Moroccan colleagues who were victims or witnesses of the terrible earthquake that took place in September, one of the deadliest in Morocco. Sadly, the summer of 2023 has been marked by numerous extreme or catastrophic events, whether linked to climate change or not, which remind us of the fragility of human life and the need for solidarity in the face of such disasters. In addition, the war in Ukraine and in Palestine is still fresh in everyone's minds, providing a sometimes distressing backdrop to our daily lives and those of our friends in those regions.

The Belgrade International Congress on the History of Pharmacy is just around the corner. With less than a year to go, it is time to start thinking about the theme of the congress, "The Pharmaceutical Profession and Society: Roots, Development and Lessons for the Future", and - in a few months' time - to submit abstracts. It is a very broad topic, and one that could give rise to the publication of original work. Pharmacists have always played

important roles in public health, as well as in the community. Some have been elected by their fellow citizens to represent them in their town, region, or country. Others were involved in voluntary non-governmental organizations to promote health, or simply to contribute their skills in the service of the underprivileged or the injured. Still others moved away from pharmacy to pursue careers in the arts, or to enter national or international administrations, for example. It is this diversity that we would like to showcase at this Congress.

Let us not forget, too, that 2024 is the year of the Olympic Games, a year to recall the history of subjects surrounding these games since Antiquity: pharmacist athletes, the role of pharmacists in preventing and combating doping, the use of common medicines in sports, and so on. The year 2024 will also mark the 60th anniversary of the European Pharmacopoeia, an occasion to recall the progress made in gradually harmonizing pharmacopoeias across Europe and worldwide. So far 37 member states of the European Union have signed the Convention for the elaboration of the European Pharmacopoeia, adopted by the Council of Europe in 1964.

I hope that the members of our Academy will be present to contribute their historical expertise in all of these fields. It will also be an opportunity for our members to get together for our traditional lunch, and for the evening dedicated to the International Academy of the History of Pharmacy. The Belgrade Congress will once again be an opportunity to promote our Academy and to welcome new members. There is still time to propose new members!

Bruno Bonnemain

Message du président

Chers collègues membres de l'Académie internationale d'histoire de la pharmacie

Tout d'abord, je voudrais exprimer mes condoléances et notre soutien à tous nos collègues marocains qui ont été victimes ou témoins du terrible séisme qui a eu lieu en septembre dernier, un des plus meurtriers survenus au Maroc. Malheureusement, cet été 2023 restera marqué par de nombreux événements extrêmes ou catastrophiques liés ou non au changement climatique, mais qui nous rappelle la fragilité de la vie humaine et impose la nécessaire solidarité lors de tels désastres. Par ailleurs, les guerres en et en Palestine Ukraine restent dans tous les esprits et apportent une toile de fond parfois angoissante à nos vies quotidiennes et celles de nos amis dans ces deux régions.

Le Congrès international d'histoire de la Pharmacie de Belgrade approche. C'est maintenant dans moins d'un an et c'est le moment de réfléchir au thème du congrès « profession pharmaceutique et société : racines, développement et leçons pour le futur » et, dans quelques mois, de proposer des résumés de communications. C'est un sujet très vaste qui peut donner lieu à la publication de travaux originaux. Les pharmaciens ont eu en effet une place

importante comme acteur de Santé Publique, mais aussi dans la cité. Certains ont pu être élus par leurs concitoyens pour les représenter au niveau de leur ville, de leur région, ou de leur pays. D'autres étaient engagés dans des organisations bénévoles non-gouvernementales pour promouvoir la santé ou simplement apporter leurs compétences au service des plus démunis ou des blessés. D'autres encore se sont éloignés de la pharmacie pour mener des carrières artistiques, ou entrer dans des administrations nationales ou internationales, par exemple. C'est toute cette diversité que nous aimerions voir présenter lors de ce congrès.

N'oublions pas aussi que 2024 est l'année des jeux olympiques, une année pour rappeler l'histoire des sujets autour de ces jeux depuis l'Antiquité : les sportifs pharmaciens, le rôle des pharmaciens dans la prévention et la lutte contre le dopage, l'usage de médicaments courants en milieu sportif, etc. C'est également en 2024 que nous célébrerons les 60 ans de la pharmacopée européenne, une occasion de rappeler le chemin parcouru pour progressivement harmoniser les pharmacopées en Europe mais aussi au niveau mondial. 37 Etats membres de l'Union européenne ont signé la Convention pour l'élaboration de la Pharmacopée européenne, convention adoptée par le Conseil de l'Europe en 1964.

J'espère que les membres de notre académie seront présents pour apporter leur compétence historique dans tous ces domaines. Ce sera aussi pour nos membres l'occasion de se retrouver pour notre déjeuner traditionnel et pour la soirée consacrée à l'Académie Internationale d'histoire de la Pharmacie. Le Congrès à Belgrade sera l'occasion une nouvelle fois de promouvoir notre Académie et d'accueillir de nouveaux membres. Il est encore temps d'en proposer !

Bruno Bonnemain

The 2023 Urdang Medal for Dr. Alain Touwaide

“The American Institute of the History of Pharmacy is thrilled to announce that Dr. Alain Touwaide has been awarded the prestigious 2023 Urdang Medal for his contributions to the field of pharmacy history and scholarship. Named after the esteemed pharmacy historian George Urdang, the Medal recognizes individuals who have significantly advanced the understanding and dissemination of the history of pharmacy. Over a long and globe-trotting career Dr. Touwaide has researched the history of ancient science, particularly botany, medicinal plants, medicine and therapeutics in the Mediterranean World from archaic Greece to the Ottoman Empire. In 2007, he co-founded the Institute for the

Preservation of Medical Traditions. He is a past recipient of the AIHP's Edward Kremers Award.

The Urdang Medal is a testament to Dr. Touwaide's dedication and passion for preserving the legacy of pharmacy history. His outstanding contributions will be celebrated in person at a special awards ceremony during the International Society for the History of Pharmacy (ISHP) conference in Belgrade, Serbia, in 2024.

The American Institute of the History of Pharmacy congratulates Dr. Alain Touwaide for his remarkable achievement and for setting an exemplary standard for pharmacy historians and scholars worldwide.

The AIHP Executive Director, Professor Lucas Richert, noted that »the pool of nominations was particularly strong in 2023« and »it's extremely key to acknowledge the panel of volunteer committee members, which included past AIHP award winners and long-time members.«"

The 2023 Robert P. Fischelis Award for Dr. John Parascandola

Dr. John Parascandola has been named the recipient of the 2023 Robert P. Fischelis Award of the American Institute of the History of Pharmacy “for his extraordinary contributions to the Institute and the field of pharmacy history.”

Informations diverses par pays /

Information from the countries

États-Unis / United States

The American Institute of the History of Pharmacy is delighted to announce the appointment of Dr. Richard Del Rio as the new Director of Operations.

With a passion for historical research, coupled with his dedication to preserving and promoting the legacy of pharmacy, Dr. Del Rio is poised to lead the institute's efforts in advancing the understanding and appreciation of the history of pharmacy and pharmaceuticals.

The American Institute of the History of Pharmacy is proud to announce that Dr. Wesley Sparkmon has been honored with the 2023 Glenn Sonndecker Prize. The title of his submission was "Rexall Rides the Rails: A Rolling Convention Becomes a PR Boom."

The Glenn Sonndecker Prize, awarded annually by the American Institute of the History of Pharmacy, is given to the best unpublished manuscript received on a topic within the field of pharmacy and pharmaceutical history. The Prize includes a \$1000 cash award.

François Ledermann

Lectures

Two historical entities compared: the drug collection of the University of Bern and the pharmacognosy works of the Historical Library of Swiss Pharmacy, Aromas Itinerarium Salutis, International Seminar. The Hygiea Legacy. Pharmacy Museums and Collections in Europe Heritage, Identity and Memory, Valencia (E), 22–23.5.2023

Giacinto Cestoni, Stendhal, Pavia, e la salsapariglia, una miscela senza precedenti, Congresso nazionale dell'Accademia italiana di storia della farmacia, Brescia (I), 23–25.6.2023.

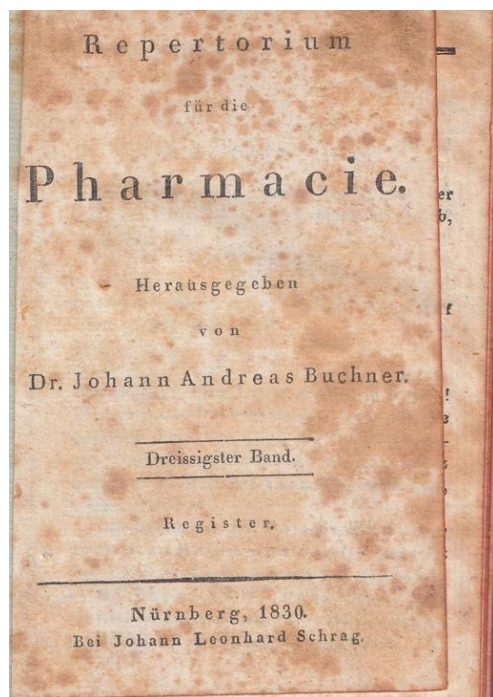

La pharmacie de l'Hôtel-Dieu de Porrentruy, un bijou jurassien, Aux petits soins, cycle de conférences, Tramelan CIP, (CH), 5.10.2023.

Papers

François Ledermann. Les saints Côme et Damien. Revue d'Histoire de la Pharmacie, 111, no 2, 2023, 274–275.

Activities

With financial support from pharmaSuisse, the Swiss Society of Pharmacists, the Historical Library of Swiss Pharmacy has undertaken under the direction of François Ledermann an inventory of the many pharmaceutical journals it owns. These include many very rare copies from the late 18th and early 19th centuries. The catalogue will be available on the Internet starting next year.
